What is a EEIG?

A European Economic Interest Group is a legal entity based on European Union law.

The purpose of the grouping is to facilitate and develop the economic activities of its members by a pooling of resources, activities or skills.

EEIG's are non-profit consortia playing an auxiliary role: they do not replace partners for bidding purposes; rather, they gather members around common ideas and goals.

Our mission

The mission of Ulixes is to anticipate and accompany the economic development through the fostering of local, national, European and international networks for the promotion of research, training and educational programmes.

Services to members

Through its Head Office, Ulixes delivers the following:

- Updating and information on the latest policy development at EU level
- Identification of public funding sources for joint activities
- Technical assistance in bidding for grants
